Planned start date Expected completion date
* The proposed dates for hedge pruning may vary depending on meteorological conditions, and other factors that are not under our control.

This gardening schedule has been created by STV in order to inform the owners of La Torre Golf Resort of the mowing of the lawns. The schedule lists the dates and phases of the mowing of the lawns throughout the resort. This has been made to notify all owners, that they take the needed precautions during the hedge pruning. Please ensure that all electrical wiring, mobile barbecues, flower pots, furniture, etc., are properly stored away in order to allow the gardeners to work without any hinderances and to avoid any accidents or damages.

** All owners are asked to leave the backyard access doors open so that the work may be executed in all properties.

***In the case the property is closed, the hedge trimming will be delayed until it is possible to coordinate with the owner and execute this service.
