

CP La Torre Golf Resort – Adult Mosquito Control Treatment Schedule, 2026

Below is the list of dates on which adult mosquito control treatments will take place at your facilities. We also attach a notice sheet regarding biocidal treatments for neighbours and residents. This document contains several recommendations to be taken into account on the dates of these applications.

Important:

In order for the applications to be as effective as possible, irrigation must be suspended on the nights of treatment in the green areas subject to control, otherwise the company cannot guarantee full effectiveness, nor access to all the programmed areas, as the ground must be dry to be able to be walked on, and the product must remain on the vegetation throughout the night.
